## DESKING

PEBLO CUSTOM desking is a comprehensive modular system which combines simple clean designs with highly robust and flexible construction.

With ample work surfaces and several support options, PEBLO CUSTOM desking can create a single desk, a cluster, or a run of workstations.

When change is required, re-configuring the desks can be done quickly and easily - Perfect for today's complex and ever-changing office environments. The PEBLO CUSTOM Desking line creates customizable solutions to suit your needs today and carry you in to the future.

Adding accessories along with power and wire management options are a few ways in which PEBLO CUSTOM Desking allows you to personalize your workspace. Our extensive selection of handles, accents, laminates & finish options create clean, fresh looks that are built to last.

## PRIVATE OFFICE

Natural Maple / Black Rail Pulls

The image on the left portrays a floating, open-style hutch, mixed lateral storage and a work surface supported by our contemporary H Leg. While the image on the right uses the same foot print as the left, we designed the workstation using sleek hutch supported O-Legs and modern square post legs.

# SHARED SPACE

Promote easy communication and the sharing of ideas with freestanding surfaces. This open design has a small footprint, yet is spacious enough for your personal belongings and office essentials.

Available components include power and data modules, dozens of storage configurations, sound dampening, and multiple height modesty panels. Shown below are 3 post leg options, each one offering your office a unique style.

# FUNCTIONAL GROUPS

*Individually tailor your teams workspace and provide customized solutions to suit your organizations needs.  
Easily reconfigure components to meet an expanding workforce.*

## ADD PRIVACY

Adding a vertical panel to worksurface allows for semi-private space in an open concept setting.

## FLIP TOP

When space is at a premium, transform a non-traditional work area using a flip top table. Roll these in to create collaborative and instructional work environmental then easily fold and tuck them away.

## LOCKER/STORAGE AREA

The need for secure, personal, short or long-term storage is evolving. Schools, gyms and organizations of all size can utilize our tailored lockers for personal belongings, or as an extra amenity for those without their own desks. With PEBLO's custom capabilities you don't need to decide between function, value, design or lead time.

Our manufacturing process allows us to parabolically modify any size, shape or design while still producing a high quality product quickly.

## EDUCATIONAL

From the reception area to interactive learning stations and computer labs, PEBLO offers a complete range of products covering the full needs of teaching establishments.

All components are designed to meet today's requirements in terms of ergonomics, flexibility and the integration of new technologies.

## CAFÉ BREAKROOM AREA

Coffee and lunch breaks have an important social and economical value for organizations. A lunchroom is a place for students or employees to recharge, collaborate and team build.

Stepping away from their desks or classrooms can inspire ideas and promote creativity and camaraderie in a casual setting.
